

The Royal Life Saving Society is a network of 30 member organisations around the Commonwealth. Our members provide drowning prevention and lifesaving education to various audiences and are trained in key lifesaving and CPR skills.

Many of the supporters and volunteers of the Royal Life Saving Society are frontline workers and will already be involved in the fight against COVID-19 but there may be other volunteers of the Society who would be willing to help at this time, if they are not already doing so.

We have member organisations in the following Commonwealth countries:
